

January, 2011

### MEMBERSHIP OF AUSTRALIAN FORESTRY STANDARD LIMITED (AFSL)

AFSL Stakeholders through their membership fees provide AFSL the funding to continually develop and maintain the Australian Forestry Certification Scheme (AFCS) and its' elements. This ensures current and topical issues are addressed and reviewed in regards to the Standards and where necessary to establish Research and Development Projects and develop consultation forums for the current Australian Standards.

Membership also provides key Stakeholders with the opportunity to be involved, through collaboration and debate, in the direction and services of Australian Forestry Standard Limited

There are four membership classes in AFSL:

- Government
- Forestry and Wood Products Sector
- Employee Representative Organisations
- General

with a current membership of 29 organisations or individuals. [as at Jan. 2011]

The **membership classes** elect the Board of Directors, currently there are 10 Directors, with class representation being:

- Government - four
- Forestry and Wood Products Sector - three
- Employee Representative Organisations - one
- General - one
- up to two Independent Directors, one of whom is the Chair of the company.

Membership to AFSL provides your organisation with the security and reassurance that the Australian Standards for Forest Management and Chain of Custody remain valid, relevant and evolving.

Your support and the growing number of members enable AFSL to maintain a voice and commitment to combating the industries discreditors and those who wish to invalidate the Australian Standard.

By becoming a Member, your organisation can ensure that the AFSL, aligns with industry needs and requirements, and/or addresses environmental and political issues, whilst helping to maintain a credible and robust Australian Standard® through the consultation process.

Your membership is an investment in the Australian Forest industry, to maintaining the validity and relevance of the Australian Standards in Forest Management, without the Australian Standard what will the benchmarks be, will your organisation be able to operate in compliance to emotional demands?

The Australian Standard for Forest Management and Chain of Custody is a scientific based method of meeting global benchmarks in sustainability and provides the vehicle for a comprehensive public and transparent consultation process for the development and maintenance of the AFS.
